Apartment with pure luxury in St Anton

For 10-12 guests

Be yourself. Inspire others. Give love. Together On Mountains.

We look forward to welcoming you at our luxurious apartment

Our accommodation is a marvellous place to spend some time. This stunning apartment is among de crème de la crème of St Anton and comfortably houses groups of between 10 and 12 guests. The accommodation takes up the entire first floor of chalet and serves as the perfect base for an unforgettable getaway in St Anton.

It exudes both elegance and comfort. This spacious apartment combines contemporary design with the traditional style of a typical Austrian chalet. The floors and walls are finished in authentic, fine quality wood, which creates a warm and charismatic interior together with the natural stone accents around the apartment. The generous living space consists of a well-equipped open-plan kitchen with a bar, a cosy dining space and an inviting seating area. Large panoramic windows flood the entire living space with natural daylight and offer breath-taking views of the mountain landscape. With three patios around the apartment,

following the sun around is a breeze.

The walls of the dining space are finished in rough, reused chalet wood to create an authentic Stube feeling. The sumptuous chandelier above the dining table further contributes to this aesthetic. On top of that, the dining space offers plenty of room for 12 guests to dine at the same time. This accommodation can be booked with a 3/4 board formula, which means our chef will treat you to his creations at breakfast and in the evening. If you fancy a barbecue at any time, just start grilling on the BBQ fire on the adjoining patio. The fire pit measures no less than 1 metre across, meaning cosiness and functionality are guaranteed!

A huge but detailed wood carving showing the surrounding ski slopes adds a decorative touch to the seating area. This wood carving isn't just there to serve as an eye-catcher: it also adds functional value as you can use it to plan your routes for the day. A snug, circular sofa with an abundance of supportive cushions to sink into serves as the perfect place to relax. Just switch on the crackling (electric) fireplace, dive into a good book or explore what Netflix has to offer on the flat-screen TV, and you're all set for a cosy night in.

To ensure every one of the 10 to 12 guests can spend the night in the same spacious and comfortable setting, all bedrooms are designed to offer an oasis of luxury. The apartment has 4 double rooms and 1 quadruple room. Aside from a unique interior with refined furniture, a flat-screen TV and stylish accents, each bedroom also has an en-suite bathroom. All of the bathrooms are finished to the same tasteful standard, but the use of different natural stone means each one has its own character.
