Luxurious chalet for rent in St Anton Austria with 475 sqm and 6 bedrooms

The height of style and sophistication, the chalet elevated position affords uninterrupted views of the valley and surrounding peaks which can be enjoyed from its balconies or extensive terrace. The interior architects MM Design of Frankfurt who undertook the refurbishment of the famous Brenners Park Hotel in Baden-Baden among many other prestigious properties were commissioned for this project. The interior is a masterclass in craftsmanship and contemporary Alpine design.

The chalet is laid out over four floors, sleeping 12 in total in six very well appointed en-suite bedrooms where five of the bedrooms can be configured either as twin or double bedrooms depending on the group. Two bedrooms on the first floor and two on the second have private balconies and all have small dressing rooms. All bedrooms have a flat screen TV, a safe and an en-suite bath/shower rooms.

There is a beautiful and opulent living and dining area situated at the front of the chalet on the ground floor, flooded with light and warmth emanating from the fire place. A separate breakfast room can be joined to the main living area for formal dining for larger groups. The spacious and very well equipped professional kitchen is separated from the living areas.

After an exhilarating day on the slopes guests can take in the latest movie in the chalet's dedicated TV room or retire to the wellness area on the lower ground floor where a hammam, sauna and relaxation area

are located.

There is a separate winter entrance to the ample ski room located on the lower ground floor of the chalet, equipped with boot heaters and a clothes drying area. Guests also access to a laundry facility if required.
