One of the most beautiful chalets in St Anton for rent

It is said to be the most photographed chalet in St Anton is a unique and historic Alpine chalet that has undergone complete modernisation since being built in 1911. Part chalet, part town house, it maintains the classic architecture that makes it so unique, whilst featuring contemporary updates to modernise the property.

The five en-suite double rooms are spread between the ground and first floor, providing ample space and are all equipped with a walk in wardrobe and wet room showers. Two bedrooms on the first floor have access to a shared balcony. On the top floor, the two master suites feature standalone bath tubs as well as walk in showers. They also benefit from the chalets "second lounge", providing an excellent breakaway space for some peace and quiet or even a movie night!

Enjoy a hearty breakfast in the morning or relax prior to your delicious 4-course dinner served by your chalet team. For your pre dinner drinks, we will have the real fire crackling away. Take advantage of the Apple TV linked up to the large flat screen TV as you recline on the mix of comfy sofas and bespoke armchairs, which provide plenty of space for 12 guests plus an additional 2.

A highlight of the property is found just a few steps out the back door where you will find the outdoor sauna and hot tub where you can loosen up those legs after your day hitting the slopes or table dancing at après ski.

Prices are based on exclusive use of the chalet for up to 12 guests and includes full gourmet catering, open bar and in-resort chauffeur service. An extra two guests can be accommodated, please enquire.
