She is part of the inner circle of the 100 Greatest Interior Designers on the planet. She outdid herself for Villa. Offering a fusion style blending Bohemian Couture spirit declined with elegance and refinement in an interior open to nature. Specialized in hyper luxury, Stéphanie Coutas creates a new universe, far from the tumult of Paris. The opportunity to stage new finishes around natural materials: carved wooden wall, brushed marble, raffia and linen ... Always at the forefront of design, Stéphanie Coutas signs an interior with a daring bias, mixing modern art and bohemian chic integrated in a Provençal environment. A total success ...
