This incredible home was originally built in the 60's and is an example of the Golden Era of Marbella. Renovated to today's world class standards it is one of the finest beachfront homes in Marbella. With direct access to the "paseo marítimo" (promenade), one can walk along the boardwalk to Marbella centre or Puente Romano in a matter of minutes. This substantial beach home consists of a main house, newly built guest annex of 7 bedroom suites, a pool house and a staff house. Surrounded by lush mature gardens with precious pine trees and a large swimming pool, as well as a second guest pool, the villa is perfect for family gatherings and in the summer months benefits from balmy evenings by the sea. The stunning entrance courtyard with fountain beckons towards an exotic interior evoking a James Bond film or a boutique luxury hotel. An ample corridor surrounds a central patio as befits a Moorish style palace and leads to the main reception room, breakfast room and a magnificent 18 seat formal dining room connecting to the industrial kitchen only for staff and chefs. Outside is a stunning elongated L-shaped terrace with full dining area, seating areas and beyond, access to romantic pool tower house with a small bedroom suite. The master bedroom quarters are situated on the entrance level featuring a large window with a direct view to the spectacular gardens and the sea and has an adjacent bedroom ideal for children and an ample private office. A large guest bedroom suite compliments this level whilst upstairs we have another two further bedrooms sharing two bathrooms. On the lower level of the property with lift access, is a state of the art cinema, gymnasium, sauna and two luxury bedroom suites with exterior access. The newly built guest annex house has 7 bedrooms and one of the units offers 2 bedrooms together, ideal for families with children. The staff house with two bedrooms can house the guests' staff such as assistants, nannies or drivers and has 2 bedrooms. Breakfast service and maintenance included. All other extra services available upon request. The main house can be rented on its own or rented with the guest annex. Prices on request.
